---

### Objective

The main purpose of this project is to help Nico Inocalla transition his business transactions from Facebook to his own web application.

---

### Goal

To design and develop a web application for Nico Inocalla which will allow him to display his work and possibly attract new clients

---

### Specification

1. Simple user interface (UI) which is easy to learn and navigate
  2. Allow user to book an appointment
  3. Browse images on the application
- 

### Stakeholder

Nico Inocalla

---

### Potential Risks

1. Inaccurate estimations due to developer's limited time availability
  2. Scope Variations may occur due to client's feedback or stakeholder's request
- 

### Milestones/Sprints

1. Requirements gathering
2. Design process
3. Prototyping
